

MEMORANDUM OF UNDERSTANDING

BETWEEN

DA-IICT

and

eiTRA, eInfochips Ltd.

Preamble:

As Software prices have shot up and licensing has been a major issue, Open source technologies have got momentum. Apart from being freeware, Open source technologies are very useful in terms of study, as we get source code also at the disposal. With these understanding, it has become vital to make the technical educational Institutes aware of open source technologies. It has become vital to narrow down the gap between technical educational Institutes and users of open source technologies which can benefit both and thereby the nation.

As software testing industry has grown in a tremendous way, it has created many employment opportunities for the engineering student. To meet the demand of the software testing industry, it has become vital to narrow down the gap between Technical Education Institutes and software testing industries which can benefit both and there by nation.

Today the world is moving towards Integrated and Embedded Solutions and only software / hardware solutions are not sufficient towards providing entirely automated techniques. To meet the demand of making integrated automated solutions, it has become vital to narrow down the gap between Technical Education Institutes and software testing industries which can benefit both and there by nation.

Dhirubhai Ambani Institute of Information and Communication Technology (DAIICT) was established in 2001 with a vision to help build a knowledge-led society founded on intellectual competitiveness for global leadership. It is the only advanced institute named after the Late Dhirubhai Ambani, the founder of Reliance Group. An act of the Gujarat Legislature provided for the establishment of the DAIICT and conferred on it the status of a university under Government Gazette Volume XLIV, Thursday, 6 March, 2003. The DAIICT as a private university was included in the list of universities maintained by the University Grants Commission under Section 2(f) of the UGC Act, 1956. DAIICT is also a member of the Association of Indian Universities (AIU) as approved by the AIU in its 84th Annual Meeting held in 2009. The institute is a non-affiliating university and does not receive any aid or other financial assistance from the Central or State Government.
